Intelektualna svojina

ЗАВОД ЗА
ИНТЕЛЕКТУАЛНУ
СВОЈИНУ

Obuhvata autorsko pravo i pravo industrijske svojine. Zakoni su nacionalni, ali postoji jaka međunarodna regulativa.

Zakoni kojima se štiti intelektualna svojina mogu da predstavljaju ozbiljnu prepreku za ostvarivanje prava na slobodu informisanja, predviđena Univerzalnom deklaracijom o ljudskim pravima.

Istim zakonima regliše se intelektualna svojina u sferi nauke i obrazovanja, industrije i zabave.

UNIVERSAL DECLARATION OF HUMAN RIGHTS 19

Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media and regardless of frontiers.

Autorsko pravo

Nacionalni zakon o autorskom pravu štiti od bespravnog korišćenja pisana dela, baze podataka, softver, muzička dela, tonske zapise, koreografiju, fotografije, likovna i arhitektonska dela.

Zakon štiti i ekspresiju ideja, procedure, metode, koncepte, otkrića, izbor, uređivanje činjenica u bazama podataka, ali ne i same činjenice. (Npr. tabele su zaštićene, a podaci u njima nisu i možete ih koristiti uz navođenje izvora)

Ideje nisu zaštićene, ali izražavanje ideja i umnožavanje autorskih dela jeste.

Autorsko pravo

Zaštita autorskog dela počinje momentom njegovog fiksiranja u bilo kom mediju – papirnom, elektronskom, magnetnom itd.

Autor ima pravo na to da se delo uvek pripisuje njemu i da se čuva integritet dela. Da bi delo bilo publikovano (umnoženo i distribuirano), autori prenose ugovorom svoja prava na izdavača.

To ih može dovesti u nepovoljnu poziciju, da ne mogu da koriste sopstvene rezultate u nastavi, kasnijim radovima, na veb sajtu i sl.

Treba veoma pažljivo čitati ugovore sa izdavačima!

Autorska prava za pisana dela

- **Nosioci su ili izdavači (oko 80%) ili autori**
- **Nasledna su i važe do 70 godina od smrti autora ili koautora**
- **Za mnoga dela iz 20. veka ne zna se ko je nosilac autorskog prava (izdavači više ne postoje, autorovi naslednici nisu poznati ...)**
- **Google je započeo sa skeniranjem svih knjiga iz fondova velikih biblioteka, ali su ga udruženi izdavači SAD tužili sudu ...**

Autorski ugovori

Većina izdavača, posebno komercijalnih, traži da autor prenese isključivo pravo na svoj rad na izdavača. Autor zadržava moralno pravo da se rad pripisuje njemu, ali za korišćenje rada svi se moraju obratiti izdavaču za dozvolu.

Ukoliko ugovor ne predviđa neke izuzetke, to znači da autor ako želi da pošalje kolegama ili studentima tekst, mora da traži odobrenje od izdavača, i da plati naknadu nosiocu autorskih prava na umnožavanje dela – izdavaču!

Elementi ugovora

- Prenos prava na umnožavanje, **isključivog** (najčešće) ili **neisključivog**
- **Izuzeci od tog prava** (postavljanje preprinta ili postprinta rada na veb sajt autora, u institucionalni ili tematski repozitorijum, reprodukcija rada u disertaciji)
- Definisanje **embargo** perioda za tako postavljen rad
- **Izjava autora da je delo originalno i da nema neraščišćenih odnosa sa drugim autorima** (koautorima, autorima tabela, fotografija, crteža i sl.)

Copyright Transfer Statement

The copyright to this article, including any graphic elements therein (e.g. illustrations, charts, moving images), is hereby assigned for good and valuable consideration to Springer effective

If and when the article is accepted for publication and to the extent assignable if assignability is restricted for by applicable law or regulations (e.g. for U.S. government or crown employees). Author warrants (I) that he/she is the sole owner or has been authorized by any additional copyright owner to assign the right, (II) that the article does not infringe any third party rights and no license from or payments to a third party is required to publish the article and (III) that the article has not been previously published or licensed.

The copyright assignment includes without limitation **the exclusive**, assignable and sublicensable right, unlimited in time and territory, to reproduce, publish, distribute, transmit, make available and store the article, including the abstracts thereof, in all forms or media of expression now known or developed in the future, including pre- and reprints, translations, photographic reproductions and microform. Springer may use the article in whole or in part in electronic form, such as use in databases or data networks for display, print or download to stationary or portable devices. This includes interactive and multimedia use and the right to alter the article to the extent necessary for such use.

Authors may self-archive the Author's accepted manuscript or their articles on their own websites. Authors may also deposit this version of the article in any repository, provided it is only made publicly available 12 months after official publication or later. He/she may not use the publisher's version (the final article), which is posted on SpringerLink and other Springer website, for the purpose of self-archiving or deposit. Further more, the Author may only poste his/her version provided acknowledgement is given to the original source of publication and a link is inserted to the published article on Springer's website. The link must be accompanied by the following text: "The final publication is available at link.springer.com".

Prior versions of the article published on non-commercial pre-print servers like arXiv.org can remain on these servers and/or can be updated with Author's accepted version. The final published version (in pdf or html/xml format) cannot be used for this purpose. Acknowledgement needs to be given to the final publication and a link must be inserted to the published article on Springer's website, accompanied by the text "The final publication is available at link.springer.com". **Author retains the right to use his/her article for his/her further scientific career by including the final published journal article in other publications such as dissertations and postdoctoral qualifications provided acknowledgement is given to the original source of publication.**

Author is requested to use the appropriate DOI for the article. Articles disseminated via link.springer.com are indexed, abstracted, and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.

After submission of the agreement signed by the corresponding author, changes of authorship or in the order of the authors listed will not be accepted by Springer.

Konzorcijske licence za elektronske publikacije

KoBSON potpisuje ugovore sa izdavačima u ime biblioteka, te ne postoji ograničenje koliko puta će neki članak biti skinut sa sajta izdavača, već samo ograničenje da se ne može preuzeti ceo broj od korica do korica odjednom.

Kada ne bi bilo licencnog ugovora kojim je to regulisano, to bi po zakonu o autorskim pravima bila povreda prava na umnožavanje dela, jer to pravo pripada isključivo nosiocu autorskih prava.

Nekomercijalne licence

Za korisnike je posebno značajan materijal koji je preko interneta dostupan u režimu otvorenog pristupa, ali za koji se zna ko je autor, odnosno ko preuzima odgovornost za sadržaj.

Ovakav materijal je često zaštićen nekomercijalnim licencama, kao što su na primer **GNU** ili **Creative Commons** licence.

Postoji i mnogo materijala na svetskoj mreži koji nije zaštićen nikakvim licencama.

Licence za otvoreni pristup (CC)

Svakom je autoru u interesu da njegov rad bude dostupan što većem broju čitalaca, kako bi rezultati njegovih istraživanja imali što veći odjek, što može uticati i na napredovanje njegove karijere, a istovremeno i da mu se autorstvo priznaje jer mu ono obezbeđuje naučnu reputaciju.

DART – Evropa (DART – Europe) je partnerski projekat istraživačkih biblioteka i bibliotekskih konzorcijuma koji zajedno rade na poboljšanju globalnog pristupa evropskim istraživačkim tezama. DART – Evropa je podržan od strane LIBER-a i predstavlja Evropsku radnu grupu Umrjene digitalne biblioteke teza i disertacija ([Networked Digital Library of Theses and Dissertations – NDLTD](#)).

Partneri u projektu DART – Evropa pomažu istraživačima u pristupu elektronskim tezama i disertacijama ETĐ (Electronic Theses and Dissertations – ETD) putem jedinstvenog evropskog [Portala](#) i učestvuju u lobiрању kako bi uticali na budući razvoj evropskih e-teza. DART – Evropa nudi partnerima evropski forum o ETĐ pitanjima i pruža mogućnost za udruživanje u cilju podnošenja prijave za finansiranje radi postizanja vizije o elektronskim tezama i disertacijama projekta DART – Evropa.

Resursi projekta DART – Evropa se obezbeđuju kroz partnerske doprinose.

Partneri podržavaju sledeće principe:

1. DART – Evropa ће podsticati kreiranje, istraživanje i korišćenje evropskih e-teza i održavati centralni [Portal](#) za agregaciju i pristup tezama.
2. Evropske biblioteke i konzorcijumi su pozvani da svoје метаподатке учине делом [Portala DART - Evropa](#). Сарадници ће одлучивати о условима под којим ће се њихови метаподаци уносити.
3. DART – Evropa са захвалношћу прима доприносе партнера који би увећали ресурсе који чине основу управљања, istraživanja, употребљивости и чувања e-teza i доприносе postizanju ciljeva projekta DART - Evropa.
4. Partneri ће одредити једног представника за контакт са проектом DART – Evropa i предложити најмање једног представника за учешће у DART – Evropa мејлинг листи.
5. DART – Evropa поздравља као добродошле понуде партнера да, по потреби, буду домаћини састанцима [Одбора пројекта DART – Evropa](#).
6. Partneri ће помоћи да се осигура статус пројекта DART - Evropa као међународне мреже изврзности у областима информација, стручности и ресурса везаних за ETĐ.
7. [UCL](#) (University College London) ће обављати администрацију пројекта DART – Evropa, а водиће га Одбор који чине представници partnerskih organizacija. Пословник и Правилник о раду Одбора пројекта биће дефинисани и с времена на време ревидирани од стране Одбора.

Izjava o korišćenju

Ovlašćujem Univerzitetu Biblioteku „Svetozar Marković“ da u Digitalni repozitorijum Univerziteta u Beogradu unese moju doktorsku disertaciju pod naslovom:

koja je moje autorsko delo.

Disertaciju sa svim priložima predao/la sam u elektronskom formatu pogodnom za trajno arhiviranje.

Moju doktorsku disertaciju poručenu u Digitalni repozitorijum Univerziteta u Beogradu mogu da koriste svi koji poštuju odredbe sadržane u odabranom tipu licence. Preporučene zajednice (Creative Commons) za koju sam se odlučio/la:

2. Autorstvo - nekomercijalno
3. Autorstvo – ne komercijalno – bez prerađe
4. Autorstvo – ne komercijalno – deliti pod istim uslovima
5. Autorstvo – bez prerađe
6. Autorstvo – deliti pod istim uslovima

(Molimo da zaokružite samo jednu od šest ponuđenih licenci, kratak opis licenci dat je na poleđini lista).

1. Autorstvo - Dovoljava utiskavanje, distribuciju i javno saopštavanje dela, i prerađe, ako se navede ime autora na način određen od strane autora ili davaoca licence, čak i u komercijalne svrhe. Ovo je najslabodnija od svih licenci.

2. Autorstvo – nekomercijalno. Dovoljava utiskavanje, distribuciju i javno saopštavanje dela, i prerađe, ako se navede ime autora na način određen od strane autora ili davaoca licence. Ova licenca ne dozvoljava komercijalnu upotrebu dela.

3. Autorstvo - nekomercijalno – bez prerađe. Dovoljava utiskavanje, distribuciju i javno saopštavanje dela, bez promena, preoblikovanja ili upotrebe dela u svom delu, ako se navede ime autora na način određen od strane autora ili davaoca licence. Ova licenca ne dozvoljava komercijalnu upotrebu dela. U odnosu na sve ostale licence, ovom licencijom se ograničava najveći broj prava korišćenja dela.

4. Autorstvo - nekomercijalno – deliti pod istim uslovima. Dovoljava utiskavanje, distribuciju i javno saopštavanje dela, i prerađe, ako se navede ime autora na način određen od strane autora ili davaoca licence i ako se prerađa distribuira pod istom ili sličnom licencijom. Ova licenca ne dozvoljava komercijalnu upotrebu dela i prerađe.

5. Autorstvo – bez prerađe. Dovoljava utiskavanje, distribuciju i javno saopštavanje dela, bez promena, preoblikovanja ili upotrebe dela u svom delu, ako se navede ime autora na način određen od strane autora ili davaoca licence. Ova licenca dozvoljava komercijalnu upotrebu dela.

6. Autorstvo - deliti pod istim uslovima. Dovoljava utiskavanje, distribuciju i javno saopštavanje dela, i prerađe, ako se navede ime autora na način određen od strane autora ili davaoca licence i ako se prerađa distribuira pod istom ili sličnom licencijom. Ova licenca dozvoljava komercijalnu upotrebu dela i prerađe. Slična je softverskim licencijama, odnosno licencijama otvorenog koda.

Autorska prava i plagijarizam

- **Plagijarizam je korišćenje tuđih reči i rezultata bez navođenja originalnog izvora.**
- **Danas se to lako otkriva uz pomoć široko dostupnih softvera, npr. <http://www.plagtracker.com/>, kao i Google i Yahoo pretraživača.**
- **Za razliku od bespravnog umnožavanja nije krivično delo ukoliko ne dovodi do materijalne koristi, ali podleže disciplinskoj i moralnoj odgovornosti, posebno u nauci.**

Tipovi plagijarizma

- Preuzimanje materijala i prikazivanje kao sopstvenog (**intelektualna krađa**)
- **Kupovina rada** od druge osobe ili preuzimanje tuđeg rada sa interneta
- **Kopiranje celog rada** bez navođenja izvora
- **Potpisivanje tuđeg teksta**
- **Autoplagijat** – preuzimanje teksta iz sopstvenog rada bez navođenja izvora
- **Plagijat prevodenjem** bez navođenja izvora
- **Parafraziranje bez navođenja izvora**
- **Navođenje tuđeg teksta bez citiranja**
- **Nenamerni plagijarizam.**

Nauka danas

- **Broj naučnika danas prevazilazi ukupan broj svih koji su ikada stvarali**
- **Količina podataka kreiranih za poslednje dve godine je jednaka količini kreiranoj ikad**
- **Količinu prikupljenih podataka naučnici ne mogu postići da analiziraju**
- **Podaci su dostupni na vebu u mašinski čitljivoj formi u obliku teksta, multimedija, na društvenim mrežama...**
- **Mašinska analiza podataka omogućava uočavanje modela, povezivanje podataka dobijenih istraživanjima u različitim vremenima, laboratorijama i naučnim oblastima i **postojeći sistem zaštite autorstva ometa maksimalno moguć učinak.****

Naučni časopisi kao glavni komunikacioni kanal i osnov za vrednovanje

Većinu najuticajnijih časopisa, koji naučnicima donose najviše bodova objavljuje nekoliko komercijalnih izdavača (Elsevier, Springer, Wiley-Blackwell, Taylor and Francis ...), i na njima enormno zarađuju, dižući cene svake godine.

Pošto praktično drže monopol na “kvalitetnu” nauku, umesto servisa za širenje rezultata istraživanja, postali su kočnica jer su zbog cene nedostupni mnogima.

Profit komercijalnih izdavača

2010/2011 Profits for Commercial Publishers

	<u>Profits</u>	<u>Revenues</u>	<u>Profit Margin</u>
• Elsevier	\$1.2B	\$2B	36%
• Wiley	\$106M	\$253M	42%
• Springer	\$467M	\$1.4B	34%
• Informa	\$74M	\$230M	32%
• Apple			24%
• Google			27%

Da li je situacija prihvatljiva?

Apsurdna situacija, u kojoj na rezultatima rada naučnika koji su istraživanja vršili koristeći društvene fondove zarađuju komercijalni izdavači, dovela je do stvaranja **Pokreta za otvoreni pristup**.

Podsticaj Pokretu dali su i:

- pojava Interneta koji omogućava brz protok informacija,
- porast cena i smanjenje budžeta svetskih biblioteka.

WHY SHOULD YOU PAY TO READ THEM ?

Otvoreni pristup

podrazumeva da svaki korisnik koji ima pristup internetu bilo gde u svetu ima pravo da čita, preuzima, čuva, štampa i koristi digitalni sadržaj radova objavljenih u otvorenom pristupu, sa jedinom obavezom da ih korektno citira.

Otvoreni pristup

Otvoreni pristup naučnoj literaturi ostvaruje se u dva glavna, međusobno komplementarna oblika:

- **samoarhiviranjem i izgradnjom mreže institucionalnih ili disciplinarnih repozitorija, kojima se povećava dostupnost i vidljivost naučne produkcije određene institucije, ili određene naučne discipline, pri čemu je rad moguće uneti pre recenziranja (preprint), ili već recenziran i negde objavljen (postprint); (GREEN)**
- **objavljivanjem radova u časopisima koji su u otvorenom pristupu, u potpunosti ili delimično - tzv. hibridni časopisi (GOLD).**

Pravo pristupa ne zadire u zakon o autorskom pravu, jer vlasnik autorskog prava kratkom izjavom - licencom (npr. CC licencom) daje pristanak na otvoreni pristup svom radu, s tim da mu ostaje pravo na ispravno navođenje autorstva i ona prava koja je rešio da zadrži – na primer pravo na komercijalnu eksploataciju dela.

Bez pristanka autora u otvorenom pristupu mogu biti samo ona dela za koja su autorska prava istekla.

Komercijalni izdavači i OA

Pošto su shvatili da je OA tu da ostane, komercijalni izdavači uvode mogućnost da autori plate da, u časopisu koji je inače dostupan samo preko pretplate, njihov rad bude u otvorenom pristupu. Na sajtovima se nalaze i čitavi kursevi za autore koji treba da im pomognu da pripreme što bolji rad.

Što je ugled i uticajnost časopisa veća, to je i cena viša. Cenu plaćaju autori ili institucije.

Bibliotečki budžeti su svuda u krizi, individualne pretplate na časopise su retkost, tako da je ovo odgovor izdavača na smanjenje profita.

Dostupnost u OA 2013.

Istraživanje dostupnosti u otvorenom pristupu radova objavljenih od 2004. do 2011. godine, (Science-Metrix) je pokazalo da je dostignuta kritična tačka preovladavanja otvorenog pristupa i da je u više zemalja i u više naučnih oblasti broj dostupnih radova prešao 50%.

Istraživanje je obuhvatilo 28 zemalja EU, Švajcarsku, Lihtenštajn, Island, Norvešku, Tursku, Makedoniju, Izrael, Brazil, Kanadu, Japan i SAD i 22 naučne oblasti.

Preko 50% članaka bilo je u otvorenom pristupu u više zemalja, i to u oblasti nauke i tehnologije, biomedicinskih istraživanja, biologije, matematike i statistike.

Većina finansijera naučnih istraživanja prihvatila je i objavljivanje u časopisima sa otvorenim pristupom ili hibridnim i arhiviranje u digitalnim repozitorijumima. Preko 75% radova je imalo embargo period pre puštanja u otvoreni pristup od 6 do 12 meseci.

Beall's List:

Potential, possible, or probable predatory scholarly open-access publishers

This is a list of questionable, scholarly open-access publishers. We recommend that scholars read the available reviews, assessments and descriptions provided here, and then decide for themselves whether they want to submit articles, serve as editors or on editorial boards. The criteria for determining predatory publishers are [here](#).

We hope that tenure and promotion committees can also decide for themselves how importantly or not to rate articles published in these journals in the context of their own institutional standards and/or geocultural locus. We emphasize that journal publishers and journals change in their business and editorial practices over time. This list is kept up-to-date to the best extent possible but may not reflect sudden, unreported, or unknown enhancements.

„Izdavači“ koji zasipaju ljude pozivima da objave rad u njihovim e-časopisima ili da objave e-knjigu, uz minimalnu naknadu. Pri tome nemaju ni recenzente ni redakcije, ni stalne adrese.

Bibliotekar i profesor sa Univerziteta u Denveru, Kolorado, Džefri Bil, uz pomoć kolega iz celog sveta održava listu sumnjivih časopisa i izdavača u otvorenom pristupu.

About the Author

Jeffrey Beall

I work as a librarian at Auraria Library, University of Colorado Denver, in Denver, Colorado.

An academic librarian for over 22 years, I have published extensively in the areas of metadata, full-text searching, and information retrieval.

My interest in scholarly open-access publishing began in 2009 when I reviewed the publisher [Bentham Open](#) in *The Charleston Advisor*, a journal that reviews electronic resources.

Previously, I served on the editorial board of *Cataloging & Classification Quarterly*, an experience that, in addition to my own research and writing, helped me learn a lot about scholarly communication. My service on this editorial board ended in December, 2012.

A full list of my publications is available on my [website](#). In 2012 I was awarded tenure and promoted to associate professor.

My email address is jeffrey.beall@ucdenver.edu.

About Science Publishing Group
Science Publishing Group is an independent international publisher of 50+ open access, online, peer-reviewed journals covering a wide range of academic disciplines. With an editorial team comprising some of the world's leading researchers, Science Publishing Group communicates scientific discoveries to over 100 countries.

Our Mission
Science Publishing Group is dedicated to advancing technological innovation and excellence for the benefit of humanity. Science Publishing Group and its members inspire a global community through its publications, conferences and professional and educational activities.

We ensure that scientists and researchers get the recognition and rewards that they deserve and the opportunity to play a significant role in the global scientific community.

Publish with Science Publishing Group

Full peer review: All manuscripts submitted to our journals undergo double-blind peer review.

Fast publication: Science Publishing Group guarantees fast and constructive peer review process of papers within approximately one month of submission.

High visibility: Each journal in SciencePG uses the OpenURL standard, making it easy for the libraries to link users as directly as possible from citation to the full text of the article.

Open Access: Open Access means knowledge available to all, without the barrier of affordability and without restrictions on using it, to inform and develop related areas of research.

Plant

Plant aims to publish exciting, high quality science that addresses fundamental questions in plant science. Typically, the research will provide insight into an as yet unknown mechanism or poorly understood process, will constitute a highly significant contribution to our understanding of plants, and be of general interest to the plant science community. All areas of plant are welcome and the experimental approaches used can be wide-ranging and interdisciplinary. Many fully-sequenced genomes and related technologies are now available. PLANT welcomes functional genomics manuscripts when a scientific question, rather than the technology used, has driven the research.

How much does Science Publishing Group charge for its different journals?
The normal APCs (Charge for Copyediting, proofreading and other editing services) for a manuscript are \$500USD. For manuscripts submitted before October 30, 2013, Science Publishing Group offers various discounts on APCs, which are outlined below:
For authors from high-income, the amount of APC is \$300USD.
For authors from upper-middle-income countries and lower-middle income countries, the amount of APC is \$200USD.
For authors from low-income countries, the amount of APC is 700USD.

List of countries by GNC per capita:
[http://en.wikipedia.org/wiki/List_of_countries_by_GNI_\(nominal,_Atlas_method\)_per_capita](http://en.wikipedia.org/wiki/List_of_countries_by_GNI_(nominal,_Atlas_method)_per_capita)

Science Publishing Group offers discounts on its article processing charge for regular submissions, and Science Publishing Group also outlines several articles included in the Editorial Office for free. In addition, Science Publishing Group offers a discount to reviewers of some journals to thank them for their services or to previous authors to thank them for their insights.

The article processing charge includes: professional copyediting, immediate publication quickly upon acceptance; different format of publication (HTML, PDF).

Are reports of my article included in the article processing charges (APC)?
No.
Article processing charges (APC) do not entitle the authors to receive reprints of their published article. Reprints can be ordered separately and applicable for any article that has been published in a Science Publishing Group journal. To request an offer for reprints of an article, please send an e-mail to info@sciencepublishinggroup.com.

How do I pay?
The submitting author needs to arrange payment of the article processing charge unless a waiver has been granted. Following peer review, once a manuscript has received editorial acceptance in principle, the article processing charge becomes payable and banking checks or the equivalent are accepted. Once banking checks are completed, and payment of the article processing charge has been received, the article will be published.

Science Publishing Group currently supports the following payment methods:
• Wire transfer in US Dollars (USD)
• Payment through PayPal
• International Bank Account Number (IBAN)

Dear Stela Filipi Matutinovic,

We recently found out that you authored the work "Europeana newspapers project contribution to the freedom of information: finding out about Nikola Tesla from historical newspapers" within the framework of your research conducted for University of Belgrade.

We are a publisher specialized since many years in the publication of academic manuscripts from renowned institutions for tertiary education.

I am getting in touch with you to inquire whether you may be interested in publication and dissemination of your work in the form of a printed book.

If your answer is positive, I will be pleased to provide you with additional information on our offer.

I am looking forward to hearing from you.

Lambert Academic Publishing: A Must to Avoid

I receive many emails from all over the world complaining about LAP Lambert Academic Publishing GmbH & Co. KG. (This publisher is so bad, I will not even provide a link to them).

I don't list them on my blog because they are not an open-access publisher. Instead, they spam recent graduates and junior faculty and entice them to sign over the rights to their dissertations and theses, which Lambert then advertises on Amazon and elsewhere and prints them on demand.

In fact, the company has a gaggle of "acquisition editors" who search the web all day and night and then send spam emails to their unlucky targets who have recently completed a dissertation.

LAP is an imprint of VDM Publishing, which is headquartered in Saarbrücken, Germany. The [Wikipedia article](#) about VDM Publishing provides a good description of the company's questionable practices.

Nacionalna biblioteka za medicinu SAD

<http://www.nlm.nih.gov/>

The image shows the homepage of the National Library of Medicine (NLM). At the top left is the NIH logo and the text "U.S. National Library of Medicine". To the right is a search bar with a magnifying glass icon and the word "Search". Below the search bar are social media icons for RSS, Twitter, and Facebook, and the text "Contact NLM".

The main content area is divided into several sections:

- Databases:** PubMed/MEDLINE, MeSH, UMLS, ClinicalTrials.gov, MedlinePlus, TOXNET, Images from the History of Medicine, LocatorPlus, All NLM Databases & APIs.
- Native Peoples' Concepts of Health and Illness:** A multimedia exhibition for visitors of all ages. The exhibition explores the interconnectedness of wellness, illness, and cultural life of Native peoples. It features a large graphic with the words "NATIVE VOICES" in a stylized font.
- Find, Read, Learn:** Search biomedical literature, Find medical terminologies, Search NLM collections, Read about diseases, Learn about drugs, Explore history, Find a clinical trial, Use a medical dictionary, Find free full-text articles.
- Explore NLM:** About NLM, Health Information, Library Catalog & Services, History of Medicine, Online Exhibitions & Digital Projects, Information for Publishers, Visit the Library.
- Research at NLM:** Human Genome Resources, Biomedical Research & Informatics, Environmental Health & Toxicology, Health Services Research & Public Health, Health Information Technology.
- NLM for You:** Grants & Funding, Meaningful Use Tools, Training & Outreach, Network of Medical Libraries, Regional Activities, Careers @ NLM, Mobile Gallery.
- News & Events:** National Center for Biotechnology Information Celebrates 25th Anniversary (11/05/13), NLM Mourns Loss of Former New York Congressman Major Owens (11/01/13), MedlinePlus Connect Integrates Information from Genetics Home Reference (10/30/13), NLM, AAHSL Announce 2013-2014 Leadership Fellows Program Participants (10/22/13).

At the bottom, there are five icons representing different services: Technical Bulletin, Connect with NLM, Multimedia Exhibition, Podcasts, and NLM Tools & Widgets.

PubMed i PMC

PubMed je baza podataka sa apstraktima i citatima iz medicinskih časopisa

The screenshot shows the PubMed website. At the top, there is a navigation bar with 'NCBI Resources' and 'How To' links, and a 'Sign in to NCBI' link. Below this is a search bar with 'PubMed' entered and a 'Search' button. The main content area features a 'PubMed Commons' banner with a 'click for overview page' button. Below the banner are three columns of links: 'Using PubMed' (including Quick Start Guide, Full Text Articles, FAQs, Tutorials, and New and Noteworthy), 'PubMed Tools' (including Mobile, Citation Matcher, Batch Citation Matcher, Clinical Queries, and Topic-Specific Queries), and 'More Resources' (including MeSH Database, Journals in NCBI Databases, Clinical Trials, E-Utilities, and LinkOut).

PMC je digitalni arhiv slobodno dostupnih članaka iz medicinskih časopisa, koji zbog propisa o obavezi postavljanja radova u OA posle embargo perioda od najviše 12 meseci postaje sve značajnija.

The screenshot shows the PMC website. At the top, there is a navigation bar with 'NCBI Resources' and 'How To' links, and a 'Sign in to NCBI' link. Below this is a search bar with 'PMC' entered and a 'Search' button. The main content area features a 'PMC' banner with a blue background and a 'PubReader' icon. Below the banner are three columns of links: 'Get Started' (including Overview, Users' Guide, Journal List, FAQs, and Copyright Notice), 'Participate' (including Add a Journal to PMC, Participation Agreements, File Submission Specifications, and File Validation Tools), and 'Keep Up to Date' (including New in PMC, Announcements, Utilities, and Tagging Guidelines). At the bottom, there is a statistics box showing '2.8 MILLION Articles are archived in PMC' and a table of participation statistics.

Društvene mreže

Društvene mreže kao što su Facebook, Twitter i LinkedIn su veoma koristan izvor informacija i omogućavaju kontakt sa kolegama iz celog sveta. Registracija je besplatna, a popularnost ovih mreža raste.

Sve više institucija postavlja svoje profile na ove mreže i komunicira sa korisnicima preko njih, postavlja materijal na veb sajtove, YouTube, blogove itd.

Polako se gube jasne granice između institucionalnih profila na mreži, digitalnih repozitorijuma, foruma i časopisa.

Novi koncept objavljivanja i recenziranja u biomedicini: <https://peerj.com/>

The PeerJ Mission

PeerJ is an Open Access publisher that makes **access to research free to all** and affordable to publish for researchers & their institutions.

PeerJ provides academics with two Open Access publication venues: *PeerJ* (a peer-reviewed academic journal) and *PeerJ PrePrints* (a 'pre-print server'). Both are focused on the Biological and Medical Sciences.

PeerJ starts at \$99 - for lifetime publishing, and public *PeerJ PrePrints* are free to publish.

Članovi mogu da postavе besplatno rad u preprint repozitorijum, da dobiju komentare, da ga prebace u časopis PeerJ, zajedno sa recenzijama i sa svim komentarima autora i čitalaca, uz obavezu da i oni urade jednu recenziju tokom godine.

Pay once, publish for life

It doesn't need to cost thousands to publish Open Access or to subscribe to academic journals. PeerJ is doing away with all of that.

Upcoming courses

Social Epidemiology (Coursera)

Start Date: May 31st 2013
Social epidemiology is about how a society makes people sick and/or healthy. We address not only the identification of new disease risk factors (e.g., deficient social capital) but also how well-known exposures (e.g., cigarette smoking, lead paint, health insurance) emerge and are maintained by the social system.

Stat2.3x: Introduction to Statistics: Inference (edX)

Start Date: May 31st 2013
An introduction to statistical ideas and methods commonly used to make valid conclusions based on data from random samples.

English Common Law: Structure and Principles (Coursera)

Start Date: June 2013
For students or professionals who have an interest in learning about the development and application of the law in a common law jurisdiction.

Creative Programming for Digital Media & Mobile Apps (Coursera)

Start Date: June 2013
For anyone who would like to apply their technical skills to creative work ranging from video games to art installations to interactive music, and also for artists who would like to use programming in their artistic practice.

The Camera Never Lies (Coursera)

Start Date: June 2013
Film, images & historical interpretation in the 20th century for those who have a general interest in photojournalism, and films based on historical events.

Lična elektronska biblioteka

Da bi se snašli u toj “džungli” informacija, potrebno je napraviti svoju elektronsku biblioteku koja vam je uvek i svuda dostupna i pretraživa, preko koje možete komunicirati sa kolegama i deliti važne informacije i koja će vam olakšati unošenje referenci u tekstove koje pišete.

Sve to omogućuje besplatni servisi kao Zotero i Mendeley.
