План

- Начини претраге
- КоБСОН-ова страница
- Појединачни сервиси
- Ембарго, у штампи, ПДФ формат
- Читање 2.0 и уређаји
- Електронске књиге доступне преко КоБСОН-а
- Сервис eVrary

Комбинација кључних речи

- Обавезно је коришћење логичких оператора између појмова
- Размислите о кључним речима
- Комбинујте прво мањи број појмова, а после додајте још појмова

Синтагма или претраживање фраза

- Уколико не укуцате логичке операторе између појмова, база ће то да схвати као синтагму. У неким базама су обавезни наводници за синтагму
- Ако нисте сигурни да је ваш појам синтагма, убаците између речи логичке операторе

Načini pristupa

Kome je KoBSON dostupan

KoBSON portal dostupan je bez ikakve nadoknade i autentifikacije svima sa akademskog IP domena u Srbiji. Neophodno je u internet browser-u podesiti proxy server odgovarajućeg univerziteta.

Od 2004. godine korisnicima je omogućen i udaljeni pristup ("od kuće", posredstvom komercijalnog provajdera) i to pod istim uslovima kao i iz IP prostora akademske mreže. Praćenje korišćenosti KoBSONa ukazuje da oko 30% naših korisnika koristi informacione izvore izvan uobičajenog radnog vremena (noću, vikendom, praznikom). U ovom režimu do danas imamo registrovanih 9500 istraživača iz Srbije, što je oko trećine ukupnog broja registrovanih istraživača prema poslednjem popisu Republičkog zavoda za statistiku.

Pristup sa akademskog IP domena

Sadržaji KoBSON-a dostupni su svim istraživačima koji rade u akademskim i naučnim institucijama povezanih na **Akademsku mrežu Srbije / AMRES**. Adrese proxy servera na univerzitetima u Srbiji su:

Univerzitet u Beogradu i Kragujevcu	proxy.rcub.bg.ac.rs	147.91.1.45
Univerzitet u Novom Sadu	proxy.uns.ac.rs	147.91.173.31

АКТУЕЛНО

Ново лице електронског каталога - INVISQUE

У четвртак 10. новембра у сали на спрату Универзитетске библиотеке "Светозар Марковић" у 13:15 Tinni Choudhury са универзитета Мидлсекс, Велика Британија, представиће, путем видео линка, нови, иновативни интерфејс за електронски каталог INVISQUE.

Више

У организацији
Универзитетске библиотеке "Светозар Марковић"
Филолошког факултета Универзитета у Београду
Задужбине Иве Андрића у Београду

у четвртак, 13. октобра 2011. у 13. сати
отворена је изложба

Како је тумачен Иво Андрић
поводом 100 година од објављивања првих књижевних радова и
50 година од доделе Нобелове награде за књижевност

Изложбу су отворили
др Јован Делић
редовни професор Филолошког факултета у Београду
Поздравне речи
др Стела Филипи Матутиновић, директорка Универзитетске библиотеке,
проф. др Александра Вранеш, декан Филолошког факултета у Београду,
Драган Драгојловић, управник Задужбине Иве Андрића у Београду

Аутори изложбе
Вука Јерemiћ и Драгана Михаиловић,
библиотекари саветници у Универзитетској библиотеци
Каталог | Фотографије са отварања

Како је тумачен

Едукација докторанада и млађих истраживача

Универзитетска библиотека "Светозар Марковић" организује едукацију докторанада и млађих истраживача у области евалуације, приступа и коришћења електронских извора научних информација. Вишегодишње искуство стечено у интерактивном раду са полазницима ових курсева сабрано је у приручнику

Др Стела Филипи-Матутиновић : "Електронски извори информација у науци: значај, врсте, доступност, процена вредности"

Lynne Christine Alice - превела Србислава Маја Шаховић "Како написати предлог квалитативног истраживања"
Превод текста објављујемо уз сагласност издавача, Београдске отворене школе

Ashworth, Lucian M. - превела Србислава Маја Шаховић "Плагијаризам!"
Превод текста објављујемо уз сагласност издавача, Београдске отворене школе

KoBSON lista

Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi). Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

Važno

Zabranjeno je preuzimanje svih radova iz jedne sveske časopisa (od korica do korica) jer bi to moglo dovesti do ukidanja pristupa tom servisu ceoj akademskoj zajednici Srbije.

Časopisi u papirnoj formi

Za strane časopise koji se nalaze u bibliotekama Srbije čija su godišta navedena u određenom vremenskom opsegu, molimo da konsultujete biblioteke telefonom da bi proverili tačnu godinu, volumen i broj.

Nazivi disciplina

Nazivi Kategorija predstavljaju nazive disciplina, date su na engleskom jeziku i iste se kao što su navedene u JCR (Journal Citation Report).

Academic Search Premier

This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.

[Title List](#) [More Information](#)

Business Source Premier

Business Source Premier is the industry's most used business research database, providing full text for more than 2,300 journals, including full text for more than 1,100 peer-reviewed titles. This database provides full text back to 1886, and searchable cited references back to 1998. *Business Source Premier* is superior to the competition in full text coverage in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. This database is updated daily on EBSCOhost.

[Title List](#) [More Information](#) [Enhanced Business Searching Interface](#)

ERIC

ERIC, the Education Resource Information Center, contains more than 1.3 million records and links to more than 323,000 full-text documents dating back to 1966.

[More Information](#)

Health Source - Consumer Edition

This database is the richest collection of consumer health information available to libraries worldwide, providing information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine and general health. *Health Source: Consumer Edition* provides access to nearly 80 full text, consumer health magazines.

[Title List](#) [More Information](#)

Health Source: Nursing/Academic Edition

This database provides nearly 550 scholarly full text journals focusing on many medical disciplines. *Health Source: Nursing/Academic Edition* also features the *Lexi-PAL Drug Guide*, which covers 1,300 generic drug patient education sheets with more than 4,700 brand names.

Електронске књиге

- ✓ Електронске књиге су дигитализоване, виртуелизоване верзије књига које се могу читати преко рачунара или посебних уређаја – читача електронских књига.
- ✓ Многи програми и уређаји који се користе за приказивање садржаја електронских књига омогућавају читаоцу функционалност на коју је он навикао приликом читања књига штампаних на папиру: обележавање текста подвлачењем, дописивање коментара и обележавање страница.

Електронске књиге

Електронске књиге се најчешће презентују у PDF формату и могуће их је на рачунару читати помоћу апликације Acrobat Reader, а овај формат препознаје и већина читача електронских књига

Данас у свету постоје многобројни модели ових уређаја од којих се тренутно два издвајају својим квалитетом и распрострањеношћу: Sony eBook Reader и Amazon Kindle.

Оба уређаја нуде већ поменуте функције карактеристичне за већину читача електронских књига

За кориснике у Србији препоручујемо коришћење уређаја Amazon Kindle пошто се Србија налази у систему продаје везаном за овај уређај.

Електронске књиге

Електронске књиге могуће је читати и на таблет рачунарима и мобилним телефонима. Физичке димензије ових уређаја отварају нове просторе и нове временске периоде за читање.

Електронске књиге

Да би читање било ефикасно и продуктивно потребно је користити уређаје примерене датим околностима и окружењу. Читачи електронских књига са екранима на бази технологије електронског мастила (Amazon Kindle) погодни су за “дуго читање”, док су таблет рачунари предвиђени за “кратко читање”.

1.1 Electromagnetic Environment

The new generation of civil aircraft depends heavily on electronic systems to implement safety-critical functions. Because these aircraft may be exposed to high intensity radiated fields (HIRF) created by radio frequency (RF) emitters based on the ground, in the air, and at sea, civil aviation authorities have become increasingly concerned about the potential for electromagnetic interference (EMI) to these critical electronic systems. With the increasing density of the electromagnetic environment, civilian aircraft authorities and standards committees have developed HIRF requirements that are being applied to civil aircraft certification programs.

Military aircraft and weapon systems must operate compatibly within an electromagnetic environment that can be even more severe than the civil HIRF environment. For example, the electric fields from a high altitude, nuclear electromagnetic pulse (EMP) can reach a peak amplitude of 50,000 V/m. Emerging high power microwave (HPM) threats can generate power densities in excess of 100 W/cm² at tactical ranges. And aircraft that must take off from and land on naval ships can be exposed to a dense and highly intense electromagnetic environment with electric field strengths exceeding 1000 V/m.

Ebrary

eBrary

Izdavač: eBrary

iz akademske institucije	udaljeni pristup
iz akademske institucije, Novi Sad	
(podešavanje Proxy servera)	(o pristupu 'od kuće')

O servisu

Servis obuhvata preko 30.000 naslova knjiga iz svih oblasti nauke. Klikom na naslov knjige otvara se njen sadržaj u Quick view pogledu. Za punu funkcionalnost korišćenja teksta (kopiranje, štampanje, naglašavanje- highlight, dodavanje beleški) potrebno je instalirati ebrary Reader (jednostavnim klikom na dugmence Install u instalacionom prozoru). Servis omogućava kopiranje teksta u druge aplikacije uz automatsko citiranje i izbor stila citiranja (MLA, APA i dr.). Preporučuje se otvaranje ličnog naloga na ovom servisu (Create Your User Account) koji pruža niz pogodnosti: pravljenje sopstvene police knjiga, pamćenje obeleženog teksta i unetih komentara. Prilikom otvaranja naloga mora se prijaviti e-mail adresa otvorena na nekom od pretraživača (gmail.com, yahoo.com, hotmail.com). Takođe, otvaranje ličnog naloga i kompletna funkcionalnost omogućeni su isključivo preko Akademske računarske mreže. Za sada, ove opcije nije moguće koristiti preko "Udaljenog pristupa".

Nije dozvoljeno štampanje i kopiranje teksta cele knjiga, a broj stranica koje je moguće štampati i/ili kopirati u druge aplikacije je ograničen.

Simple Search: [Search ebrary](#) [Advanced](#) [All Subjects](#)

Welcome to ebrary!

Your library has access to [Academic Complete](#), a growing e-book collection spanning all academic subject areas.

Below are a few easy steps to help you get started. For further support and troubleshooting, please visit our [online training site](#).

Getting Started

- [Get Quick Guide](#)
- [View Training Video](#)
- [Sign Up for Training](#)

- Conduct a search** – Use simple or advanced.
- Open a document** – Click on the title name or jacket.
- Explore the document** – Navigate to search terms, search the document for key words, jump to relevant chapters, flip through pages.
- Highlight text and take notes** – Create a bookshelf (if needed) to save and organize your research.
- Use InfoTools** – Link out to other online resources to expand your research.
- Print pages, and copy and paste text** – ebrary provides automatic citations with a URL hyperlink back to the source.
- Manage, archive and share research** – Organize your bookshelf and email folders

Search and Browse

To search the entire collection, use the search box at the top left hand side of this site. Browse and search by specific subject areas by clicking on the links below.

» [Browse all titles](#)

Can't find what you're looking for? Browse *all* available ebrary content on our [Title Preview](#) site or email sales@ebrary.com.

CHAPTER 2 DATA PREPROCESSING

Outliers

data in a form not suitable for data mining models

with policy or common sense.

For data mining purposes, the databases need to undergo preprocessing, **cleaning and data transformation**. Data mining often

has been looked at for years, so that much of the data contains values that have expired, are no longer relevant, or are simply missing. A primary objective is to *minimize GIGO*: to minimize the “garbage” that gets into the model so that we can minimize the amount of garbage that our models give

Dorian Pyle, in his book *Data Preparation for Data Mining* [1], estimates that data preparation alone accounts for 60% of all the time and effort expended in the entire data mining process. In this chapter we examine two principal methods for preparing the data to be mined, data cleaning, and data transformation.

DATA CLEANING

To illustrate the need to clean up data, let’s take a look at some of the types of errors

Discovering Knowledge in Data : An Introduction to Data Mining in Windows Internet Explorer

Figure 2.4 Replacing missing field values with random draws from the distribution of the variable.

American car with 300 cubic inches and 150 horsepower would probably be expected to have more cylinders than a Japanese car with 100 cubic inches and 90 horsepower. For a discussion of these and other methods, including Bayesian estimation, refer to *Statistical Analysis with Missing Data* [2].

IDENTIFYING MISCLASSIFICATIONS

Let us look at an example of checking the classification labels on the categorical variables, to make sure that they are all valid and consistent. One of the functions of *Statistical Mining's* *missing values* node is to display a frequency distribution of

right? Probably not. Zip codes for the New England states begin with the numeral 0. Unless the zip code field is defined to be *character* (text) and not *numeric*, the software will probably chop off the leading zero, which is apparently what happened here. The zip code is probably *06269*, which refers to Storrs, Connecticut, home of the University of Connecticut.

The next field, *gender*, contains a missing value for customer 1003. We detail methods for dealing with missing values later in the chapter.

The income field, which we assume is measuring annual gross income, has three potentially anomalous values. First, customer 1003 is shown as having an income of \$10,000,000 per year. Although entirely possible, especially when considering the customer's zip code (*90210*, Beverly Hills), this value of income is nevertheless an *outlier*, an extreme data value. Certain statistical and data mining modeling techniques do not function smoothly in the presence of outliers; we examine methods of handling outliers later in the chapter.

Poverty is one thing a poor customer 1004 has. U income of -\$40,000 lies b an error. It is unclear how t being that the negative sign should approach this value manager most familiar with

So what is wrong with it may in fact be valid. But why the precision with customer values are meant to be coded 99999 was coded in an old database to mean *missing*. Again, we cannot be sure and should again refer to the "wetware."

Finally, are we clear as to which unit of measure the income variable is measured in? Databases often get merged, sometimes without bothering to check whether such merges are entirely appropriate for all fields. For example, it is quite possible that customer 1002, with the Canadian zip code, has an income measured in Canadian

it is negative, as our customer 1004's reported and therefore must be most likely explanation we cannot be sure and date with the database

99? Perhaps nothing; to the nearest \$5000, ses, certain specified missing values. Perhaps

So what is wrong with customer 1005's income of \$99,999? Perhaps nothing; it may in fact be valid. But if all the other incomes are rounded to the nearest \$5000, why the precision with customer 1005? Often, in legacy databases, certain specified values are meant to be codes for anomalous entries, such as missing values. Perhaps 99999 was coded in an old database to mean missing. Again, we cannot be sure and should again refer to the "wetware."
